

# Soundly - Stream Deck Profile & Icon Pack

## Changelog: May 2024

### Added Stream Deck + profiles

- The folder profile organizes all functions in folders on 1 page. Due to the limited amount of buttons on the Stream Deck +, some folders have subfolders.
- The pages profile spreads out functionality over multiple pages.
- Press the Zoom knob to switch between Horizontal and Vertical zoom.
- Press the Nudge knob to switch between 10% and 3% nudge amount.
  - Touching the Touch Strip icon for Nudge will rewind the playhead to start.
- Swipe on the Touch Strip left/right to move to the previous/next page.
- Touch Strip backgrounds in various colors added.
- Most main icons are now available for the Touch Strip.
- A few special knob icons were made specifically for the Touch Strip.

### Additions to all profiles

- New blue default look for all icons and backgrounds.
- Almost all icons have gotten an updated look to better match the icons in the Soundly app. Most previous icons are still available as variants.
- Added function for Fade Selection
- Added function for detailed Nudge
- Added function for switching between 2x, 4x and 8x pitch amount.
- Added function for opening Place It and Shape It
- Added function for create, delete and move between tabs.
- Added various new icons and variations.
- All icons are now also available in Light, Dark, Blue and Green color with transparent background.
- Added blank button backgrounds in various colors.

### Fixes and changes to all profiles

- Fixed some buttons (most notable on Windows profiles) that were not working even though they had the correct shortcut.
- Fixed some icons and button texts that had the wrong size.
- Consolidated "Rename File" and "Edit Metadata" functions into "Metadata".
- Renamed "Local" to "Show File".
- Renamed "+ Recent" to "To Recent"
- Renamed "Play/Pause" to "Play/Stop"
- Renamed "Invert" to "Swap"
- Renamed "Search & Clear Text" to "New Search"
- Renamed "Search & Keep Text" to "Filter Search"
- Renamed "Shuffle Search Results" to "Shuffle Results"
- Renamed "To DAW" to "Send"
- Renamed "To DAW (with flag icon)" to "Send Flagged"
- Renamed "Ext Edit" to "Send Secondary"
- Renamed "To PT Bin" to "Send To PT Bin"
- Renamed "Pitch" and "Volume" to "Pitch Up", "Pitch Down", "Volume Up" and "Volume Down".
- Renamed "Nudge" to "Nudge 10%"
- Removed some obsolete variant icons.
- Removed empty folders inside profiles. The icons for these are still available.
- Removed the "Enter" function button inside the Search folder.
- Disabled automatically activate Soundly profiles when the Soundly app is in the foreground. Disabled because it can cause a conflict if there are multiple profiles with the same application associated with it. Can be changed in the Stream Deck software under Preferences -> Profiles.

### Revamped the Pages profile for the Stream Deck (15 button)

- The pages profile now have a page selection on the bottom 5 buttons instead of back and forward buttons. Functions are now grouped based on these 5 pages. The hope is that this will be easier to navigate than only previous/next options.
